EXPERIENCE

QA Intern | Innovate Tech

March 2024 - September 2025

- Designed and maintained structured E-book layouts for UI consistency.
- Conducted UI testing for web animations integrated in React.
- Researched trends and contributed to design enhancement.
- Created visual assets and performed exploratory testing on final builds.

PROJECTS

Bug Tracking System

Developed a QA-focused internal bug tracking system to log, track, and update defects. Enhanced bug reproducibility using screenshots and logs. Integrated test case linking.

E2E Manual Testing Dashboard

Built a structured manual testing project where test cases were designed, executed, and reported for a fictional e-commerce system. Tracked user stories, test plans, and UAT results.

API Testing Suite with Postman

Created a full API test collection simulating CRUD operation, error validations, and edge case scenarios for a RESTful service. Validated request-response cycles and status codes.
